

BAR CODE ID SOLUTIONS

Precision Dynamics developed the first bar code wristband system in 1984. Today, more hospitals choose PDC bar code wristbands than any other system in the world.

Choose from the following bar code identification solutions: *Thermal Printer Bands & Tags* print in mere seconds through direct thermal printers. *Laser Printer Bands & Labels* provide excellent printability and scannability, while protecting printed information from smearing or bleeding. *Insert Style Bar Code Bands* feature convenient pockets to protect patient data printed on insert cards.

- **THERMAL PRINTER BANDS & TAGS**
- **LABEL BANDS**
- **LASER PRINTER BANDS & LABELS**
- **INSERT-STYLE BAR CODE BANDS**

BAR CODE ID SOLUTIONS

Meet these Joint Commission Patient Safety Goals & Standards

Goal #1:

Improve the accuracy of patient identification.

Goal #2:

Improve the effectiveness of communication among caregivers.

Goal #8:

Accurately & completely reconcile medications across the continuum of care.

Easily verify printer and wristband compatibility with PDC's Product to Printer Reference Guide! Visit: www.pdcorp.com/printerguide

All PDC Bar Code ID Solutions products are latex-free and some are available with custom imprinting.

CompuBand® Direct Thermal with Snap Closure

- Print in seconds through direct thermal printers, which activate a heat-sensitive thermal material
- Durable, strong, lightweight and comfortable
- Soft CompuBand® features softer material. Ideal for patients with sensitive skin, including babies and the elderly
- Provides high quality bar code for scanning and accurate patient ID
- Tamper proof, secure snap closure

Precision® CompuBand® Snap

“As we looked at initiatives in our healthcare system, our primary goal was patient safety. We wanted to select a bar code wristband that allowed us to enhance patient safety by positively identifying patients. We have already seen great results in our patient ID process since using ScanBand®. Using ScanBand® helps eliminate any occurrences of a wrong medical record since it is on the bar code; so, we can guarantee 100% testing of the right patient.”

- Michael Day
Director of Clinical Systems Strategy
The Daughters of Charity Health System California

BAR CODE LASER PRINTER BANDS & LABELS

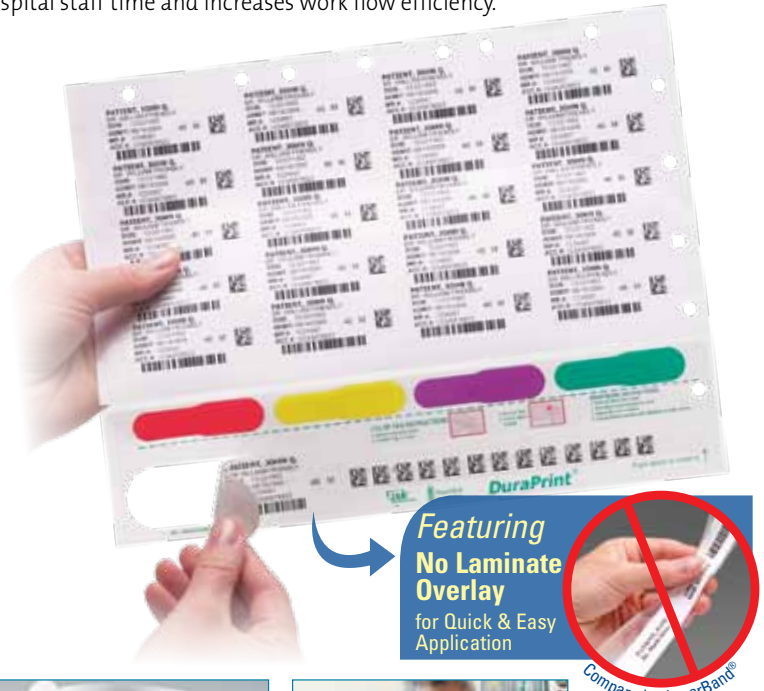

BAR CODE ID SOLUTIONS

DuraPrint® Laser Printable Patient ID System

This revolutionary wristband and label sheet has a patented design with advanced material that protects patient data and bar codes without the need for a laminate overlay, which saves hospital staff time and increases work flow efficiency.

- **Scans first time, every time!** DuraPrint outperforms competitive products in bar code scanning because there's no overlay film, which can wrinkle and crease to obstruct scanning.
- **Jam-Free™ printing!** DuraPrint lays flat when exposed to high humidity to prevent curling, which is the number one cause of printer jamming.
- **NO IT reformatting!** Allows seamless replacement with competitor laser printable products.
- Specially designed material resists moisture, alcohol, and hand sanitizer to preserve patient data and bar codes.
- **Choose from two closures:** tamper-evident Adhesive Closure prevents transfer from one patient to another. Optional Snap Closure can be ordered separately to provide an extra measure of security.
- **4 color code alert tags** warn of special precautions (allergy, DNR, fall risk, etc.).
- **Smooth, Soft, and Contoured:** Soft, smooth material and contoured edges will not damage skin.

The film overlay on our former laser wristband product was complicated to assemble. DuraPrint® is quick and easy—from printing, to assembly, to application.

During testing, we have tried many different ways to destroy or deface the DuraPrint® without success.

DuraPrint® has made everyone's job easier. It's an important part of our patient identification system, plus a great value. We're using this product exclusively.

Labels Sizes	2 5/8" L x 1" H

**POSITIVE ID.
POSITIVE OUTCOMES.**

TOP SELLER

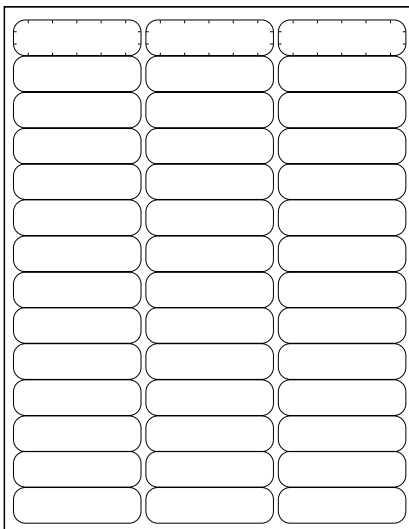

"Our intent was to find a superior system with improved scanability of bar codes and to stay HIPAA and JCAHO compliant..one that was not cost restrictive nor labor intensive to implement. We have found such a system with PDC's 9140 Laser/ DataMate® Labels.

"We conducted extensive testing through our IS Department and found that this is the only label that would hold up to the rigors of the testing and remain completely scannable and legible. Furthermore, we did not have to change one single program in our current computer system for this work. We can now run labels through our current Laser jet printers without one single change to our system. This label has made life very easy for us."
