

# BLOOD BANDS & FORMS

According to the FDA, there is an average of 414 transfusion errors in the U.S. each year, or about one per 38,000 transfusions. Match the right patient to the right blood with PDC's Blood Bands and Forms, which use alpha and numeric serialization for positive identification.

## **Securline® Blood Band and Blood Band Plus:**

Soft tri-laminate wristband features 23 easy-peel labels and tamper proof SecurSnap® closure for maximum safety. Blood Band Plus features a peel-off self adhesive tail that applies to draw tubes.

## **Ident-A™ Blood Recipient System:**

To help ensure that proper ID procedures are followed, this system includes crossmatch reports, along with wristbands with pre-numbered insert cards, label sheets and requisition forms.

## **Securlink® Blood Recipient System:**

Links the patient, transfused blood, and all related paperwork to assure safe and complete blood transfusion. Choose from the full system containing Blood Bands and Securlink® Forms or order bands and forms separately.

- **BLOOD BANDS & FORMS**

## BLOOD BANDS & FORMS

### Meet these Joint Commission Patient Safety Goals & Standards

#### **Goal #1:**

Improve the accuracy of patient identification.

#### **Goal #2:**

Improve the effectiveness of communication among caregivers.

#### **Goal #13:**

Encourage patients active involvement in their own care as a patient safety strategy.

All PDC Blood Bands & Forms are latex-free and some are available with custom imprinting.

### Securline® Blood Bands

The top wristband choice of hospitals and blood centers to reduce misidentification errors, while increasing patient comfort and safety.

- Patented SecurSnap® closure prevents transfer and tampering
- Easy-to-Read Data Area: a large, white surface offers clear and easy readability which can help reduce medical errors
- Efficient Easy-Peel Labels: includes 23 easy-peel labels (more than any other blood band style) for quick ID and tracking of specimens
- Each box includes one Xtender Band™ for larger patients (to order additional Xtender Band™ see page 55)
- Intended for in-patient use
- For outpatient use, please utilize Blood Band with Safeguard Sealident Super Wide 881 (page 25)

Kids

### Artwork Specifications

Logos: Please submit CLEAN, BLACK AND WHITE LINE ART. Tones and screens need to be converted to solids. Broken lines, weak lines, or smeared art cannot be imprinted. WE CANNOT USE FAXED ARTWORK OR LOGOS COPIED FROM A WEB PAGE, although our art department may be able to fix lower quality artwork to a certain extent. If black and white line art is not supplied for logos and special designs, you may be billed for art charges.

For customers who wish to send digital artwork via e-mail, we accept these standard graphic formats: eps, ai, tiff, and jpeg (300dpi). Illustrator files and PC format are preferred. Please convert all text to outlines. E-mail to [artwork@pdcorp.com](mailto:artwork@pdcorp.com). Please include your organization/business name, contact name, and phone number in your e-mail message.

Why do you need black and white line art? The custom printing process involves creating a printing plate of your solid artwork to print onto the wristband. Think of a rubber stamp. A rubber stamp only prints one solid color impression onto the surface.

We cannot use logos/artwork that are copied from a web page as these images are low resolution and will produce a jagged, pixelated imprint.

No tones or screens (gray area).

Art with broken lines, weak lines or smeared or faxed art cannot be accepted.

Artwork needs to be clean, black and white line art.
