

WRISTBAND & LABEL SYSTEMS CATALOG

POSITIVE ID. POSITIVE OUTCOMES.™

PRECISION DYNAMICS CORPORATION POSITIVE ID. POSITIVE OUTCOMES.™

When it comes to patient safety, positive patient identification is mission critical.

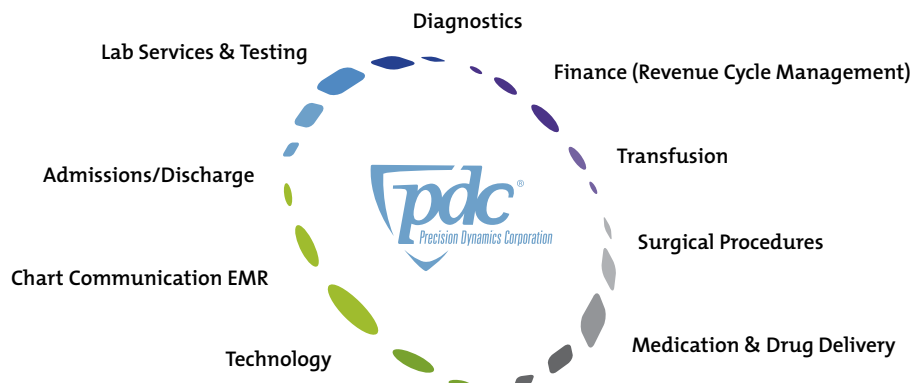

You can't deliver care safely and effectively without a system in place that provides accurate identification. But identification is about so much more than patient safety – it affects virtually every aspect of clinical care: The patient experience...The efficiency of the care process...The satisfaction of nurses, physicians, and staff. These outcomes can all be tied back to one thing: the effectiveness of your identification solution.

With more than 50 years of experience, Precision Dynamics provides accurate, reliable, and easy-to-use patient ID solutions for flawless delivery of care throughout every major hospital function, preventing errors and enhancing clinical outcomes. Since joining forces with TimeMed Labeling Systems in 2008, Precision Dynamics offers the largest selection of quality wristband and labeling systems in Healthcare today.

Our products are used in all of the top 100 hospitals nationwide* and comprise a comprehensive range of ID products that reach every touch point in the delivery of care – from admissions to discharge, from medication administration to surgical procedures, from IT to diagnostics.

*Based on recent surveys from *U.S. News & World Report* (Honor Roll of America's Best Hospitals) and *Hospital & Health Networks* (Most Wired Hospitals).

PDC Integrated ID Solutions for Healthcare

QUALITY PROCESSES. QUALITY CARE.

At Precision Dynamics, we understand the broad effect our identification solutions have on the total healthcare experience. We know that inefficient and ineffective ID systems create operational issues that can cost your patients their lives, and your organization money. We know the frustrations your clinicians and patients experience when your ID solutions don't work correctly. We know that anything less than 100% isn't an option.

As an ISO 9001 certified company, Precision Dynamics follows a systematic, world-standard approach to ensure superior product design, manufacturing, and customer support services. Every product we produce is born of thousands of hours of rigorous research and testing to provide the most durable, reliable, and comfortable products available. We are constantly working and innovating to ensure optimal performance and enhancements from every product we manufacture. We continuously strive to better understand our customers' needs and measure our performance through vehicles such as our Customer Council and Customer Survey programs.

SERVICE YOU CAN COUNT ON.

At Precision Dynamics, we stand behind our identification solutions every step of the way, offering staff training and advising our clients of the right products for each application. As part of our quality service standards, we guarantee on-time shipping, order accuracy, and problem resolution.

You can rely on our customer service before, during, and after your order. Our team is available online, via phone, and in person to ensure that your identification solutions are working seamlessly. With personal and expert consultation from our National Field Sales Representatives, we provide the personal touch that other companies can't match. With supreme attention to detail, we understand the influence something seemingly so small can have on every stakeholder, every outcome, everyday.

POSITIVE ID. POSITIVE OUTCOMES.™

AT PRECISION DYNAMICS, WE'RE POSITIVE YOU'LL SEE THE DIFFERENCE.

INNOVATION AND EXPERTISE.

As the pioneer of Healthcare identification, Precision Dynamics has been first-to-market with the industry's most revolutionary products. Our products are designed to meet changing identification technologies to meet your needs today, tomorrow, and for the future.

- First Time® Tape Colored Labeling
- First Single-piece Patient Wristband

A PASSION FOR PATIENT SAFETY.

With as many as one million people injured from errors during hospital treatment each year, patient safety continues to be the healthcare industry's top priority. Precision Dynamics products address solutions set forth by The Joint Commission Patient Safety Goals & Standards to prevent human errors from reaching patients.

- 1) Improve the accuracy of patient identification
- 2) Improve the effectiveness of communication among caregivers
- 3) Improve the safety of using medications
- 8) Reconcile medications across the continuum of care
- 9) Reduce the risk of patient harm from falls
- 13) Encourage the patients' active involvement in their own care
- 16) Improve recognition and response to changes in a patient's condition

EASY WAYS TO ORDER

EDI

Most of our customers use EDI (Electronic Data Exchange) for increased efficiency and cost savings. EDI allows business transactions to occur in less time and with higher accuracy than traditional, paper-based means. It streamlines inventory operations by closely tying manufacturing to actual demand, allowing for just-in-time delivery. EDI also reduces postage costs and the expenses and space considerations involved in paper-based record storage. Ask your Customer Service representative about getting started today.

Toll Free Customer Service

Your dedicated PDC Customer Service Representative will handle every stage of your ordering process knowledgeably, efficiently, and courteously. Precision Dynamics has two Customer Service Centers:

San Fernando, CA Call: **800.772.1122** Fax: **818.686.9314** (6:30am - 4:30pm PST)
Burr Ride, IL Call: **800.323.4840** Fax: **630.986.1800** (7:30am - 5:00pm CST)

Online Ordering

With the integration of TimeMed Labeling Systems, Precision Dynamics currently has two websites: www.pdcorp.com (wristband focus) and www.timemed.com (label focus). Online ordering is available via www.timemed.com. We are in the process of integrating the two websites. While in production, please continue to use our separate sites for your wristband and labeling needs.
