

# CLINCHER® RFID

## INMATE ID WRISTBANDS

Precision Dynamics Corporation's revolutionary Clincher® Radio Frequency Identification (RFID) Wristbands bring an advanced level of identification and tracking to correctional and law enforcement facilities. RFID wristbands contain a microchip and antenna, which allow information to be written to and retrieved by RFID scanners. The system provides one of today's most advanced methods of automatic identification, offering increased security and point-of-contact compliance.

# Clincher® RFID Wristbands

## Key Benefits

- ✓ Inmate identification is non-transferable and securely worn at all times (unlike ID cards)
- ✓ Enhanced security and data capture reliability
  - Positive inmate identification
  - Unique RFID wristband identification mitigates counterfeiting and replication
  - Safer, more efficient cell checks, inmate transports, and medication administration
  - More accurate and efficient data scans with no line-of-sight required
- ✓ Helps prove regulatory compliance
- ✓ Increase inmate safety by documenting one-on-one contact with inmates for suicide prevention programs, drug prevention programs, medication administration, and more
- ✓ Automate manual, paper-based processes
- ✓ Increase personnel productivity
- ✓ Multiple applications are driven from a single data carrier

## RFID Applications for Corrections

- Inmate Identification
- Classification
- Head counts
- Inmate transfers (court appearances, housing transfers, etc.)
- Medication administration
- Point of contact compliance
- Access control
- Cell checks
- Suicide prevention programs
- Telephone access
- Tracking issuance of supplies (razors, toothbrushes, etc.)
- Commissary account debiting

# Product Specifications

- New & Improved! More durable material lasts longer!
- PDC's strongest, heavy-duty multi-laminate wristband
- Extremely durable, rugged, and tamper-resistant
- Equipped with RFID tag
- Can be used with video imaging systems, photo ID lamination, and standard inmate ID information
- Inmate ID label is sealed in and protected through a laminating process (requires laminator machine)
- Choice of metal dual-grip fasteners (requires tool) or heavy duty plastic snaps included with wristbands

# Ordering Information

Part Number	Width	Fastener Type	Inlet Type	User Memory	Quantity
3RME-XX-PDM	1.25"	Metal	Tag-it HF-I	2048 bit	500/ box
3RPE-XX-PDM		Heavy Duty Plastic Snap	Tag-it HF-I		
3RMC-XX-PDM		Metal	I-CODE SLI-L	256 bit	
3RPC-XX-PDM		Heavy Duty Plastic Snap	I-CODE SLI-L		

Operating Frequency: 13.56 MHz | RF Protocol: ISO 15693

Replace "XX" with the following colors:

WHITE 11	YELLOW 14	RED 16	ORANGE 17	BLACK 20	PURPLE 43	FOREST GREEN 61	NAVY BLUE 70
-------------	--------------	-----------	--------------	-------------	--------------	--------------------	-----------------

PDC offers an assortment of accessories specially designed to assure secure RFID Clincher wristband application and easy removal. RFID Clincher wristbands are most effective when used with the recommended laminators featured below.

Lamination Products	
Part Number	Description
690	Laminator Machine 12" pouch
698	Laminator Machine 4" pouch
695	Reusable Carrier Sleeves (pkg. of 25)

Fasteners & Tools	
Part Number	Description
692	Dual-Grip Fastner Tool (for use with metal fasteners)
693	Metal Dual-Grip Fastener Set (pkg. of 525)
694	Metal Dual-Grip Fastener (female half only, pkg. of 525)
699	Safety Scissors
700	Plastic Snap Set (pkg. of 500)

# Clincher RFID Customer Success Story

“ Clincher RFID Wristbands provide a new level of precise, point-of-contact verification of one-on-one interaction between the detainee and our correctional officers. The Clincher RFID Wristbands, with GUARDIAN® Mobile software from Codex Corporation, electronically validate our officer's physical contact with detainees whether it's to log headcounts, supply passes, jail rounds, etc.

Before using Clincher RFID Wristbands, we solely relied on RFID tags positioned throughout the facility, which only provided our officer's proof-of-presence within the general vicinity of the detainee.

*With Clincher, we now have an electronic record of date, time, and location for each interaction between officer and inmate.*

If there is an investigation on an assault or suicide occurrence, we're able to document and prove in court that there was one-on-one contact between the individual detainee and jail guard. Being able to manage and document the individual interactions between guards and detainees is critical to several of our safety programs, including suicide prevention, drug abuse prevention, and medical care administration.”

**Nick Whitmore, Jail Administrator  
HARDIN COUNTY JAIL, Eldora, Iowa**

### PRECISION DYNAMICS CORPORATION

With more than 50 years of experience, Precision Dynamics Corporation is the global leader in identification solutions. PDC provides accurate, reliable and easy-to-use ID solutions that empower the secure identification of inmates and streamline operations. Identification solutions that support you.

### INMATE IDENTIFICATION EXPERTISE

Precision Dynamics Corporation's Clincher® line of inmate identification wristbands has been faithfully serving corrections and law enforcement for over 30 years. More jails choose Clincher® inmate identification wristbands than any other wristband system.

### SERVICE

At PDC, we stand behind our identification solutions every step of the way. As part of our service and quality standards, we guarantee on-time shipping, order accuracy, and problem resolution. We are committed to 100% customer satisfaction—before, during, and after your order.

### QUALITY

Every product we produce is born of thousands of hours of rigorous research and testing to provide the most durable, reliable, and comfortable products available. PDC is an ISO-certified company, which means that our products and services are held to the highest quality standards via a systematic world-class standard approach. Annual re-certification processes validate our ongoing commitment to quality.

### INNOVATION

PDC is recognized as an experienced pioneer in the area of radio frequency identification wristband systems. Powered by strategic alliances with the most technologically advanced companies, PDC's team of RFID experts will guide you through planning and deployment of your customized RFID system. Our team works with a trusted network of application partners to provide site assessment, needs analysis, cost evaluation, deployment planning, and project management.
