

# COLOR-CODED WRISTBANDS STANDARDIZATION

Precision Dynamics' Color-Coded Alert Bands® and Ident-Alert® Snaps support the color-coded alert standardization initiatives adopted by the majority of state hospital associations, as well as the American Hospital Association (AHA). In September 2008, the AHA issued a Quality Advisory encouraging hospitals that are already using color coded alert wristbands to adopt standard colors for the three most common condition alerts: red for Allergy Alert; yellow for Fall Risk; and Purple for Do Not Resuscitate.

### PDC's Alert Bands® and Ident-Alert® Snaps offer:

- Highly visible, color-specific identification alerts to warn caregivers of special precautions.
- Quick, easy and cost effective ways to meet state standardization.
- Extra large text provides clarification to clinicians of special patient conditions.
- Patented SecurSnap® closure prevents transfer of wristbands or Ident-Alert® snaps.
- Maximum security and patient comfort. All wristbands and snaps are latex-free.
- Customization options to communicate less common conditions (No IV, No Blood, etc.).

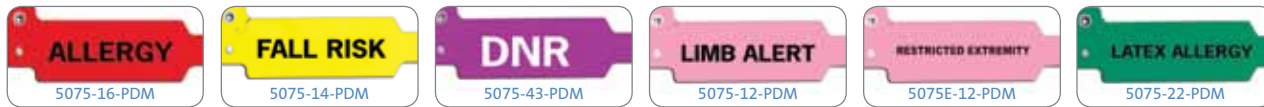

## ALERT BANDS®

### Sentry® SuperBand® Alert Bands® 5055

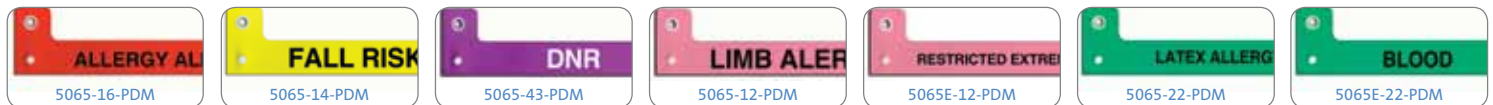

All Sentry® SuperBand® Alert Bands® are made of lightweight tri-laminate material that is durable, soft, and comfortable.

## Safeguard® Alert Bands® 825A

## Safeguard® Alert Bands® 824A (Adult/Pediatric Write-On)

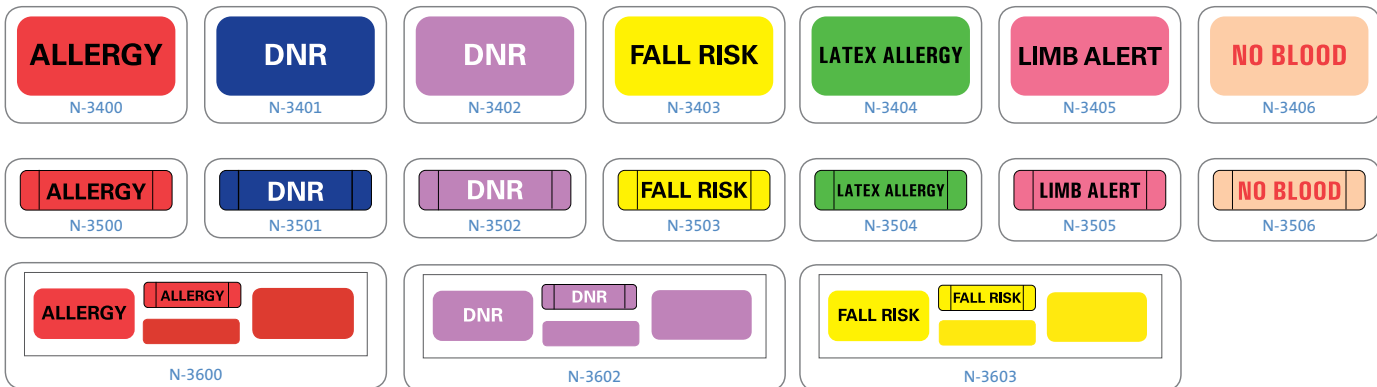

### Alert Bands® Meet these Joint Commission Patient Safety Goals:

- Goal #1:** Improve the accuracy of patient identification
- Goal #2:** Improve the effectiveness of communication among caregivers
- Goal #9:** Reduce the risk of patient harm resulting from falls
- Goal #13:** Encourage patients' active involvement in their own care as a patient safety strategy

## IDENT-ALERT® WRISTBAND COMPANION LABELS

- Complement your color coded wristbands program with matching alert labels for patient charts.
- Preprinted messages and colors promote standardization initiatives.
- Convenient wristband and chart labels that can be purchased separately or in a combination label set.
