

DuraPrint® TenderCare™

Laser Printable Patient ID System
for Labor & Delivery, Neonatal, and Pediatric Applications

POSITIVE ID. POSITIVE OUTCOMES.™

DuraPrint® TenderCare™ Laser Printable Patient ID System

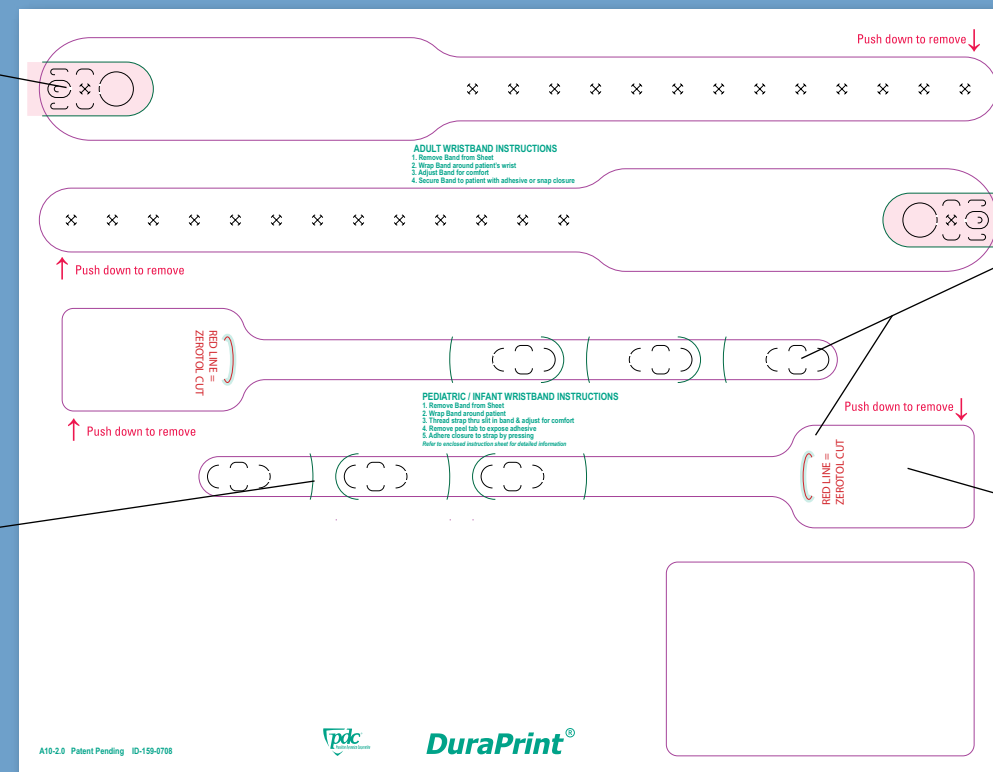

The DuraPrint® TenderCare™ Laser Printable Patient ID system is a revolutionary line of wristband solutions designed for Labor & Delivery, Neonatal, and Pediatric Applications. Available in three styles (Mother/Father/Baby, Neonatal, and Pediatric/Infant), it provides positive patient identification while preventing medical errors for maximum patient safety.

DuraPrint TenderCare features a patented design and advanced material that protects patient data and bar codes without the need for a laminate overlay, which can obstruct bar code scanning. Featuring ultra soft material with smooth contoured edges, no other laser ID product is gentler on the most delicate of patients' skin.

Through its quick and easy application, DuraPrint TenderCare streamlines steps in the admissions process to reduce wait time and increase work flow efficiency. Most hospitals agree that it's the safest, softest, and most reliable solution in Healthcare today.

Tamper-evident adhesive closure provides quick and easy application. Simply remove the wristband from the sheet and apply it to the patient's wrist using the pink alignment tab.

Multiple sizing options provide easy adjustment and are ideal for tiny newborn/infant patients.

Two infant bands per sheet affix to the ankle and wrist for positive patient ID and maximum safety and security.

Luggage Tag design provides more space for both human readable and bar code patient information.

Pictured is the Mother/Father/Baby Sheet (product number 9329-00-PDR). See back cover for ordering information for all DuraPrint TenderCare products.

Luggage Tag Design for Positive Patient ID. Functional "luggage tag" design provides a flat surface for easy and accurate bar code scanning. It also offers a larger printing area to accommodate patient ID info and bar codes and prevents disturbance to patients while scanning.

Extra Smooth Material with Contoured Edges is the Softest in Healthcare. No other laser ID product is gentler on tender skin. It's also Phthalate and latex-free, keeping babies safe from these potentially harmful substances.

Quick and Easy Application! Simply remove the wristbands and labels from the sheet and apply them appropriately to the patients and chart.

No Laminate Overlay. Traditional laminate overlay wristbands may cause wrinkles and folds, which can obstruct bar code scanning and can also cause water and chemicals to become trapped underneath the laminate overlay. **DuraPrint is laminate-free so it scans the first time every time.**

Laser Printable with standard printers, including HP® and Lexmark™. No capital expenditure is required for equipment. If you're already using a comparable laser printable ID product, **switching to DuraPrint TenderCare is quick and easy.**

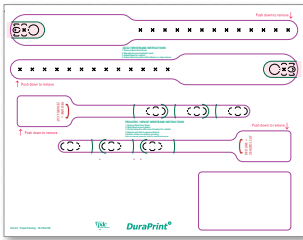

Moisture Resistant and Durable for Safety. Advanced material resists moisture, alcohol, and hand sanitizer to preserve patient data and bar codes. The wristband also provides maximum durability to resist scratching and tearing for the full duration of the patient's stay.

ORDERING INFORMATION

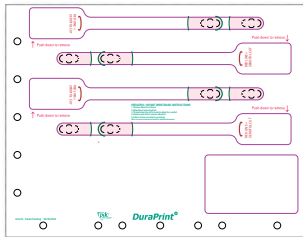

MOTHER-FATHER-BABY SHEET

This laser sheet connects the mother and significant other to the newborn. Each 8-1/2" x 11" laser sheet includes 2 baby bands, 2 adult bands, and 1 crib card.

| PRODUCT NUMBER | SHEETS PER BOX | SHEET SIZE | WRISTBANDS PER SHEET |
|----------------|----------------|--------------|----------------------|
| 9329-00-PDR | 500 | 8-1/2" x 11" | 4 |

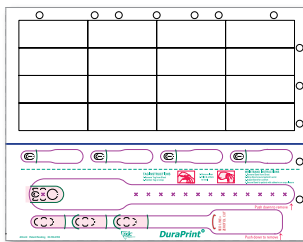

NEONATAL SHEET

This laser sheet simplifies identification for preemies and NICU patients. The 8-1/2" x 11" laser sheet includes standard hole punch, 4 baby bands, and 1 crib card. Apply 2 bands immediately to the patient and secure 2 in the patient chart for use on long term patients.

| PRODUCT NUMBER | SHEETS PER BOX | SHEET SIZE | WRISTBANDS PER SHEET |
|----------------|----------------|--------------|----------------------|
| 9334-11-PDM | 500 | 8-1/2" x 11" | 4 |

PEDIATRIC/INFANT SHEET

Designed for pediatric units and children's hospitals, this laser sheet simplifies identification by combining pediatric and infant wristbands with labels in one sheet.

Easy assembly and multiple sizing options fit infants, toddlers, and children. Eliminates the need for IT to program multiple formats. The 8-1/2" x 11", laser sheet includes standard hole punch, 1 pediatric band, 1 infant band, and 16 standard chart labels (1" x 2-1/2").

| PRODUCT NUMBER | SHEETS PER BOX | SHEET SIZE | WRISTBANDS PER SHEET |
|----------------|----------------|--------------|----------------------|
| 9333-11-PDM | 500 | 8-1/2" x 11" | 2 |
