

DuraPrint[®]

Laser Printable Patient ID System

POSITIVE ID. POSITIVE OUTCOMES.™

DuraPrint® Laser Printable Patient ID System

DuraPrint® Laser Printable Patient ID system is a revolutionary wristband and label sheet. It features a patented design and advanced material that protects patient data and bar codes without the need for a laminate overlay. DuraPrint streamlines steps in the admission process to reduce waste time for medical care. Most hospitals agree that it's the safest, simplest, and most reliable solution in Healthcare today!

1.

2.

3.

1. DuraPrint Features No Laminate Overlay!

Traditional laminate overlay wristbands may cause wrinkles and folds, which can obstruct bar code scanning and can also cause water and chemicals to become trapped underneath the laminate overlay.

wrinkles & folds that obstruct scanning

water or chemicals trapped below overlay

DuraPrint's patented design with advanced material protects patient data and bar codes without the need for a laminate overlay, which saves hospital staff time and increases work flow efficiency.

2. Jam-Free™ Printing! Specially designed material lies flat when exposed to high humidity, ensuring smooth and successful printer feedability—every time. If you're already using a comparable laser printable ID product, you can **easily switch to DuraPrint without IT reformatting.**

3. Quick and Easy Application! Simply remove the wristband from the sheet and apply to the patient's wrist using the pink alignment tab. Secure it with the tamper-evident closure.

4. Tamper-evident Adhesive Closure prevents transfer from one patient to another. **Optional snap closure** can be ordered separately to provide an extra measure of security.

5. Scans First Time, Every Time because there is no laminate overlay film, which can wrinkle and crease to obstruct scanning.

- See the problems hospitals face with traditional laminate overlay wristband systems.
- Discover how DuraPrint provides maximum convenience, scannability, and printability.
- Learn why Rush-Copley Medical Center (USA) made the switch to DuraPrint.

6. Moisture-resistant. Specially designed material **resists moisture, alcohol, and hand sanitizer** to preserve patient data and bar codes. **Latex-Free.**

7. Four Colour Code Alert Tags warn of special precautions (ALLERGY, DNR, FALL RISK, etc.). New design without labels (9335-00-PDM) is also available. Also available with red tags only (9425-11-PDR).

8. Increased Printing Area Allows Printing Along the Entire Length of the Band. This helps staff scan the patient's bar code without turning the wristband or interfering with the patient.

9. Extra Smooth, Soft Material and Contoured Edges Will Not Damage Skin, unlike the edges of some other wristbands which may scrape or scratch skin.

CUSTOMER SUCCESS STORY

VAL VERDE REGIONAL MEDICAL CENTER, USA

“The film overlay on our former laser wristband product was complicated to assemble. DuraPrint® is quick and easy—from printing, to assembly, to application. During testing, we have tried many different ways to destroy or deface the DuraPrint® without success.

DuraPrint® has made everyone's job easier. It's an important part of our patient identification system, plus a great value. We're using this product exclusively.”

DAVID L. HANLINE
Director, Materials Management

ORDERING INFORMATION

DURAPRINT WRISTBAND AND LABEL SHEET (A4 FORMAT)

PRODUCT NUMBER	SIZE OF LABEL	INFORMATION AREA	LABELS / SHEET	SHEETS / BOX	SHEET SIZE	WRISTBAND / SHEET
9425-00-PDR	6,6 cm L x 2,4 cm H	6,2 cm L x 1,7 cm H	20	1000	29,7 cm L x 21 cm H	1
9425-11-PDR	6,6 cm L x 2,4 cm H	6,2 cm L x 1,7 cm H	20	1000	29,7 cm L x 21 cm H	1
9425-16-PDR	6,6 cm L x 2,4 cm H	6,2 cm L x 1,7 cm H	20	1000	29,7 cm L x 21 cm H	1

DURAPRINT® ADULT WRISTBAND

Economically print a single wristband as part of an admission packet, emergency care, or on patient floors as a replacement band. The 7,6 cm x 28 cm soft and durable laser sheet includes 1 Adult band and 4 colour alert tabs.
