

PREPRINTED FLAG LABELS

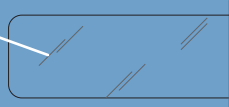

Solve Small Product Labeling Needs while Preventing Errors

Precision Dynamics Corporation's Preprinted Flag Labels are ideal for placing important warning messages on small ampoules, syringes, vials, IV tubes, bottles, and other applications. They provide a flexible and convenient solution to quickly identify medications and specimens, while preventing medical errors and maximizing patient safety.

- Labels quickly and easily wrap onto small diameter objects leaving a flat surface for messaging that can be easily read and scanned by bar code readers.
- Addresses safety and procedural issues that arise when a technician or nurse prepares a medication outside the patient room, discarding the original packaging, then transporting the syringe, ointment, or other preparations to the patient at bedside.
- Flexible and durable material resists tears and withstands handling and storage. Heavy-duty permanent adhesive ensures that the labels remain affixed to products for the full duration of use.

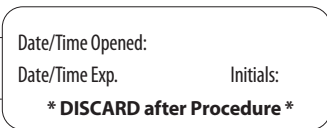

Clear tail material will not obstruct information at the point of attachment.

Date Opened:
Expiration Date:
Initials:

White, non-adhesive print area is pre-printed and can be written on with an ink pen.

Non-transferable label has a permanent adhesive.

PRODUCT NUMBER	PREPRINTED IMPRINT	SIZE OF LABEL	INFORMATION AREA	CORE SIZE	MATERIAL/ADHESIVE	LABELS PER ROLL
