

PRECISION[®] BAR CODE TAGS

Precision Dynamics Corporation's (PDC) new Bar Code Tags provide positive patient identification for infants and their mothers using bar code technology to ensure patient safety and the "Five Rights of Medication Safety". Direct thermal bar code tags:

- Provide a flat surface for best bar code scanning results, eliminating curvature issues
- Eliminate the need of extra wristbands for added patient information
- Accommodate most printers with "Wound IN" or "Wound Out" option
- Support text, linear, and 2D bar codes, photo ID and graphics
- Thread easily on patient wristbands for positive patient identification

Available in Mother/Infant and Infant styles

- Compatible with PDC's SnugFit[®] and Veri-Color[®] Mother Infant styles as well as any other bands up to 1/2" wide
